VAMSHI KRISHNA KORUTLA

Business Analyst | Data Analyst | SQL · Power BI · Tableau · Excel | Requirements & Process

korutla.vk@gmail.com | Dallas, TX · Open to relocation | linkedin.com/in/vamshi-korutla | vamshi-ai.me

PROFESSIONAL SUMMARY

Business and data analyst with four years of full-time analytics at Deloitte and hands-on project work with Cardinal Health, Solid Biosciences and an AI startup. Turns ambiguous business problems into clear requirements, trusted dashboards and measurable process change. Uses Generative AI daily with human review built in, and builds AI products of my own (InsightForge AI, InsightApply AI).

CORE SKILLS

Business Analysis: BRD/FRD, user stories, acceptance criteria, process mapping, gap analysis, requirements traceability, UAT, KPI design

Data & Tools: SQL, Power BI, Tableau, Excel, Python, Azure, Jira, Confluence; executive dashboards and reporting

AI: Generative AI (Claude, ChatGPT, Microsoft Copilot), AI use-case requirements, human-in-the-loop review, Responsible AI

PROFESSIONAL EXPERIENCE

Feasto Solutions | *AI Business Analyst (Part-time)* *Sep 2026 – Present*

- Translate AI use cases into business requirements, process maps, data requirements and human-review checkpoints.
- Document data-quality dependencies, ownership, controls and monitoring needs so leaders can evaluate AI opportunities with evidence.

Solid Biosciences | *Process Development Co-op (Data Analytics)* *Jul 2025 – Dec 2025*

- Analyzed 30+ process runs across multiple vessels (capacitance, viable cell density, growth trends) to support data-driven decisions.
- Built Python, SQL, Excel and Power BI workflows to clean, validate, reconcile and visualize high-frequency process data.
- Delivered interactive dashboards, trend reports and SOP-style work instructions that made the analysis repeatable across teams.

Cardinal Health | *Business Analyst / BIA (Volunteer Project)* *Jan 2025 – Jul 2025*

- Gathered requirements with product owners, business and technical teams; wrote BRDs, FRDs, user stories and acceptance criteria.
- Built Power BI dashboards on SQL and Azure data with validation and reconciliation checks, making reporting 30% more accessible and cutting data inconsistencies 25%.
- Ran gap analysis, traceability, process mapping, UAT and defect tracking in Jira/Confluence; Copilot-assisted documentation improved delivery timelines 20%.

Deloitte | *Operations Analyst* *May 2020 – Jul 2024*

- Delivered executive dashboards, KPI reports and operational scorecards for a large hospital-network client (5,000+ beds).
- Partnered with 10+ departments and technical teams to gather reporting requirements, standardize metric definitions and validate operational data.
- Ran trend monitoring, variance checks and workflow assessments that helped leaders find bottlenecks and improve reporting accuracy.

SELECTED AI PROJECT

Responsible AI Governance & Safety Evaluation Framework *Independent Portfolio Project · 2026*

- Designed an end-to-end governance blueprint for Generative AI use cases (intake, risk tiering, human approval gates, change control, incident escalation, audit evidence), mapped to NIST AI RMF and ISO/IEC 42001.
- Defined an evaluation and monitoring scorecard for quality, hallucination/error rate, harmful-output risk, privacy leakage, bias/fairness, robustness, and drift, with go/no-go thresholds and recurring review workflows.

LEADERSHIP

Co-founder & Leader, Namaste (Indian cultural student group) *Northeastern University, Roux Institute · 2024 – 2026*

Built a student community through large-scale events (Diwali, Holi, Indian New Year) drawing students, faculty and local professionals.

Student Ambassador *Northeastern University · Jan 2026 – Jun 2026*

Planned and ran 200+ attendee campus events and served as liaison between students, prospective students and university teams.

EDUCATION & CERTIFICATIONS

Master of Science in Data Analytics – Northeastern University | **Bachelor of Science** – Kakatiya University

Certifications: Google Data Analytics Professional Certificate | Analytics with Python (Northeastern University)
